The following communication from the Governor was received and read:

To the Honorable Senate and House of Representatives:

Pursuant to proclamation heretofore made convening Special Session, I respectfully call to your special attention measures which in my opinion should have your consideration.

It is of the utmost importance that a Central Board be established to handle the sinking funds of outstanding road and bridge bonds, and apply to the payment of these obligations a portion of the gasoline tax.

There should be an equitable distribution of the gas tax so as to provide a reasonable amount for the Road Department, a reasonable amount to indebtedness and at the same time furnish relief to the schools.

The program as outlined by measures which you have heretofore considered would result in stabilizing our schools, holding down the taxes and at the same time carry on necessary improvement.

Our present tax collection law should be amended so that the cost of collection may be reduced, the collection procedure simplified and the results made certain. Until this is done, there will be little security for the support of our schools and the discharge of other obligations of the Government.

In view of the fact that \$30,000,000 is now due the State for back taxes, steps must be taken for the collection of these obligations. In many cases the tax is exorbitant. In other cases property owners are indifferent to payment.

I respectfully recommend that authority be vested in the Board of County Commissioners with the approval of the State Comptroller, or in some similar board, to adjust on a basis of fairness to

the property owner and the government taxes wherever excessive. Much of the property will never return to the tax books until this adjustment is made. It will be good business on the part of the State and fairness to the property owner to make these adjustments.

Along with this program outstanding liens fairly adjusted should be validated that this indebtedness may be discharged.

I would also call to your attention the importance of measures relating to the schools, providing for the selection of uniform textbooks for primary and high schools, providing for the creation of the position of Director of Buildings and Standards under the authority of the State Board of Education, and also providing for a Director of Finance under authority of the State Board of Education.

I heretofore recommended the redistricting of the Judicial Circuits of our State, and have withheld sending names of the respective Circuit Judges and State's Attorneys to the Senate in order that these appointments might not be in the way of a proper redistricting. I again call to your attention the importance of this measure.

The office of Special Assistant to the Attorney-General should be abolished and save this useless expense.

Provision should be made for appropriate reports of the various county officers and regulation of their expenses.

The law providing for a State Health Officer should be amended. Without a doubt the State Health Officer is acting without constitutional authority and work of this department is likely to be interrupted at any time unless placed on sound legal grounds.

At the suggestion of the Comptroller I would also call to your attention the importance of amending the title to the Banking Act of 1927 relating to powers, duties and supervision of and by the Comptroller.

I earnestly request your consideration of the above matters.

Respectfully,

DOYLE E. CARLTON,
Governor.

Senator Stewart moved that the above communication from the Governor be spread upon the Journal.

Which was agreed to and so ordered.

The following communication from the Attorney General was received and ordered spread upon the Journal:
